- Sticky Strip (104294)

Instructions:

1. Cut two of the larger tags in Tangerine Tango using the Bigz Two Tags Die and the Big Shot. Cutting plates only, no platform. Fold both tags on the score lines and adhere the bottoms together with sticky strip. This will form the front and back of your box.

- For the sides of the box, cut a piece of Tangerine Tango at 2-3/4 x 6-3/4". Score 2" from each short side and 1/2" from each of the long sides. Fold all score lines. Add sticky strip to the outside folded edges on both sides of the basket. Snip the small outside scored lines to form 3 separate squares for the sides and bottom.

- Fold the sides of the basket up and attach this piece to the front and back part of the basket.
- Cut a piece of Tangerine Tango 1/2 x 8-1/2" for the basket handle. Attach two glue dots to the bottom edge of the handle and slide this into the slit of the tag die and attach to the inside of the basket with the glue dots. Repeat with the other side of the handle. Tie some ribbon at each side of the handle.

- Decorate as desired. I used the Vintage Verses stamped in Island Indigo on a scrap of Whisper White, punched with the medium oval. This was layered and attached to a scrap of Tangerine Tango cut with the oval scallop punch. I also cut a piece of DSP 1-1/2 x12" and a piece of Crumb Cake 1 x12". The Crumb Cake was edged with the dotted scallop border punch and attached to the DSP with sticky strip. This was attached to the basket. I added some Sycamore Street ribbon to the border with glue dots. The sentiment was added to the basket with Stampin' Dimensionals.
