

Supplies:

- 2 by 2 sticky note pad
- Scalloped Tag Topper Punch, Petite Petal Punch, Boho Blossoms Punch
- Designer Series Paper cut 2 x 6"
- Cardstock (Melon Mambo, Whisper White and Basic Black)
- Embellishments: Rhinestone, Mini Brads
- Paper Piercer

How to:

1. Cut and Score the DSP by placing it horizontally into Simply Scored Tool and scored at 2, 2 1/4, 4 1/4 and 4 5/8"
2. Use the Scalloped Tag Topper Punch on the end with the larger segment.
3. If your DSP is very busy, you may want to use some cardstock (also punched with scalloped tag topper punch) and line the scalloped flap with it by having just a narrow border at the scallops. This will also help the top flap closed better.
4. After scoring all lines, the post-it note pad was added to DSP and both flaps closed. The paper piercer was used to mark where the brad needs to be placed to hold the pad closed. Attach the brad to the inside flap so that the tab punch opening slides over it.
5. Decorate with your favorite punches like the Petite Petals Punch, the Boho Blossoms Punch and a rhinestone as shown in this picture.
